

A complete Range of Solutions

for dynamic vehicle testing

CORRSYS

DATRON

Sensorsysteme GmbH
A Kistler Group Company

OUR MISSION

At CORRSYS-DATRON, our mission is to continually advance the state of the art in vehicle dynamics testing and measurement with our CORREVIT® optical sensor technology, as well as with each of the numerous technologies we offer.

For over twenty years, CORRSYS-DATRON sensors and systems have represented the standard for accuracy and reliability in vehicle dynamics testing and measurement instrumentation. Never losing sight of this mission, we continue to refine our CORREVIT® non-contact optical technology - as well as our complete range of other testing technologies.

Ultimately, CORRSYS-DATRON testing solutions help manufacturers bring new technological advancements in vehicle production to the consumer more efficiently and effectively, helping to realize the overarching goal of creating the ultimate synergy of performance and safety in vehicle development.
